GitHub: github.com/abdelaziz321

Address: Egypt, Alexandria

I started my career in 2019-09 and worked in different places with different technologies. This small journey gave me a wide experience in many fields but I'm still trying to discover the area where I'll be proficient.

Skills:

- Strong knowledge of **PHP** with experience in **Laravel** framework.

- Strong knowledge of **Python** with experience in **Django/Flask**.

- Basic knowledge of **.Net Core** / **EF Core** / clean-architecture.

- The ability to fit into a **DevOps** culture to achieve maximum efficiency.

- familiar with cloud platforms especially **Google Cloud Platform**.

- Good knowledge and interest in OOP, SOLID principles, and Design Patterns.

- Strong experience in Building well-structured **REST APIs**.

- Good knowledge of relational databases including MariaDB/MySQL.

- Proficient in frontend technologies with experience in (**VueJs** / Vuex / / **NuxtJs** / ChartJs /) and also familiar with **Angular**.

- Good knowledge of using VCS (**GIT,** GitHub/GitLab/BitBucket).

- Good knowledge of using Linux OS (SSH, Supervisor, Firewall, ...).

- Good communication skills and basic experience in following the Agile culture.
